

Tube Room Update

Evan Carpenter

October 11, 2022

Notes/Updates

General:

- MSU delivery this thursday.
- Confirming plan for new leaking tubes going forward.
 - Waiting for Curtis.
 - Approx 3-4 are failing per day.
 - Talking with MSU?
 - 91 tubes that failed leak (+12 from last week)

Mod 33

- 4 Layers cleaned as of Monday. (232 tubes)
- Total of 350 tubes left for last 4 layers. (not including the 91^)
- 108 tubes ready to be cleaned now. 8 tubes short of 6 layers.
- Projected to be finished with layers 7-8 on friday (waiting for 2nd TT)

Tube Room Inventory

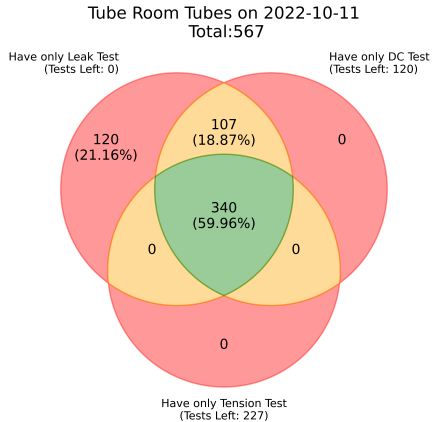

Figure: Enough tubes ready for almost 6 layers.

Last Week of Tension Tests:

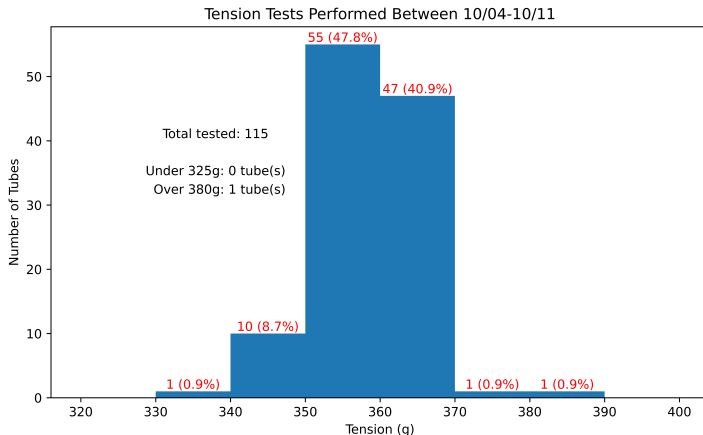

Figure: Tension summary of last week. Working on similar graph for DC summary.
